FOR IMMEDIATE RELEASE

TargetSafety Offers Free Online Community Platform for Fire Industry Professionals

PreventionLink Command Post Features Training and Compliance Resources from the Nation's Leading Fire and EMS Departments

SAN DIEGO, Calif. — Aug. 26, 2010 — [TargetSafety](http://www.targetsafety.com), the U.S. leader in online enterprise risk management solutions for public entities, is supporting collaboration and community in the fire service with its new free online solution, [PreventionLink Command Post](http://www.preventionlink.com/commandpost).

News Highlights

- PreventionLink Command Post provides fire and EMS departments with free training and compliance resources as well as industry news and blog posts.
- The online community includes access to webinars and other web-based events delivered by top U.S. fire personnel and fire association leaders.
- Command Post will soon enhance cross-departmental collaboration by allowing users to create their own network of fire industry professionals, and communicate and share resources exclusively within that network.
- PreventionLink Command Post, available to both TargetSafety clients and non-clients, is accessible by going to: www.preventionlink.com/commandpost.

About PreventionLink Command Post

PreventionLink Command Post features

- **Community Resources:** Access to valuable resources, including training presentations, educational videos, inspection forms and other compliance management and loss control documents that help departments develop custom training and compliance programs at a fraction of the cost it would take to create them from scratch.

- **Featured Solutions:** Free online training courses offered each month and focused on specific areas of fire and EMS safety and preparedness.
- **News and Information:** Relevant industry news and information delivered in real time.
- **Featured Contributors:** Blogs from the industry' thought leaders
